THE BEST HIGH TECH GIFTS FOR YOUR HOME

Intelligent appliances to simplify everyday life that combine rock-solid performance with meticulous design: the perfect inspiration for a special occasion for the most demanding customers!

For beautystas on the lookout for new

THE MINI COSMETIC FRIDGE

Fans of skincare and make-up products know all about it: **most active ingredients in cosmetics are sensitive to light and heat**. Cold, on the other hand, boosts their effectiveness!

The **BEAUTY MINI REFRIGERATOR** will delight beautystas who dream of a fridge that's reserved for their precious bottles. With its versatile **9 L capacity**, it not only **extends the life of products by cooling them**, but can also **heat them when necessary**, for example for a pore-opening mask.

It has several **shelves** for easy storage, an **LED mirror** for applying make-up and a **handle for carrying it**. The **BEAUTY MINI REFRIGERATOR** is also available in a **5 L capacity** (cold mode only and leather carrying handle).

For fans of cookery shows

THE MULTIFUNCTION HEATING FOOD PROCESSOR

They already see themselves replicating the prowess of Master Chef, Top Chef and other Top Pastry Chefs, but they have a **whole family to feed every day and little time to spare**. The **POWERCHEF MAX** multifunction food processor is made for them!

This **connected food processor combines 11 functions in a single product**: mixing, blending, emulsifying, weighing, steaming, simmering, whisking, chopping, cooking, kneading and keeping warm. Its **10 automatic programmes and a useful 3 L bowl** make it easy to prepare dishes for all the family.

Its extra-wide 10-inch touch screen gives you access to a **library of 700 recipes with step-by-step instructions**, plus **10 new recipes a month** that you can download directly onto the food processor. The interface also lets you **plan your menus for the week**.

Compact, it **saves space in the kitchen**, replacing a host of appliances and utensils.
